

## Cascades Home Health Care

As you remember those days when your Mom used to send you off to school right before she goes to work or how your Dad would always play baseball every chance you get, you realize just how much they cared for you. You begin to appreciate that amidst all those teenage mini-rebellions they still gave you the allowance you needed to pay for your date with your first girlfriend. They put you through school, bought your first car and been there for you through the ups and downs in life.

## Services

Our services are done in the very spaces of your home because we acknowledge the fact that the mere presence of one's family is enough to uplift the spirits of an individual. Our services may not be able to replace the love and support of an elderly's family, but we endeavor to alleviate the workload and provide ease in your family's life.

Here in **Cascades Home Health Care**, we offer two primary services: skilled and non-skilled.

### Skilled Care:

- **Skilled Nursing Services**  
Our skilled services include the assignment of a registered nurse in your home to take care of patients who require medical services.

### Non-Skilled Care:

- **Home Health Aide**
- **Alzheimer's Care**
- **Personal Care Services**
- **Companion Services**
